

CITY COUNCIL
CITY AND COUNTY OF HONOLULU
HONOLULU, HAWAII

ORDINANCE _____
BILL 8(2018)

A BILL FOR AN ORDINANCE

RELATING TO BUSES.

BE IT ORDAINED by the People of the City and County of Honolulu:

SECTION 1. Purpose. The purpose of this ordinance is to set pollution control requirements for certain city buses.

SECTION 2. Chapter 13, Article 6, Revised Ordinances of Honolulu 1990 ("City Bus System"), is amended by adding a new section to be appropriately designated by the Revisor of Ordinances and to read as follows:

"Sec. 13-6. Zero emissions buses.

(a) As used in the section, unless the context otherwise requires:

"Bus stop" means any place where the director has directed the placement of a bus stop sign designating a location where the city's transit bus service stops to service passengers. Such sign may include route numbers and regulatory and other information.

"Multi-modal transit center" means any bus transit center along the route of the Honolulu High-Capacity Transit Corridor Project.

"Pollutant" mean hydrocarbons, carbon monoxide, nitrogen oxides, and lead.

"Zero emissions bus" means a bus that produces zero exhaust emissions of any pollutant and includes electric battery powered buses and hydrogen-fuel cell powered buses.

(b) Only zero emission buses may be used to service routes with at least one bus stop at or within 100 yards of an active Honolulu High-Capacity Transit Corridor Project rail station or a multi-modal transit center. A rail station is deemed "active" when trains that are in revenue service stop at the station. This requirement does not apply to routes that include at least one bus stop that is at least nine miles away from the closest Honolulu High-Capacity Transit Corridor Project rail station or multi-modal transit center."

SECTION 3. New ordinance material is underscored. When revising, compiling, or printing this ordinance for inclusion in the Revised Ordinances of Honolulu, the Revisor of Ordinances need not include the underscoring.
